FIFA 22 features immersive match cutscenes, allowing players to relive the moments of the past decade's most exciting matches as they play out in one of the many stadiums, living theatres and legendary arenas featured in the game. Four years after the launch of FIFA 17, FIFA 18 and FIFA 19 has the most authentic and most accurate transfers to date. Using the world's largest data set of over 40,000 real-life player transactions from 90 countries across the world, the team at EA SPORTS has grown the FIFA Ultimate Team experience to be unparalleled. For the first time ever, FIFA Ultimate Team players can redeem Digital Gold to unlock coveted players and kits like in the game, from Lionel Messi to Kylian Mbappé, Cristiano Ronaldo to Sergio Ramos.

Q: How to check for conditional format via event trigger? Is there a way to check for conditional formatting? In the image below I want to loop through my list of highlighter cells and hide the ones that have formats in them. It has to be a conditional format cause of the cell is a SUM function of other cells. I am trying to check for a conditional formatting. Sub test()
